TIPO,
(gr. *typos* - impressão, marca).

Estrutura ou princípio organizador que se repete ao longo do tempo e que permite reconhecer uma forma mesmo com variações.

Carácter: é **abstrato e genérico**; não se copia, mas reconhece-se como princípio formal.

Invariante, que persiste no tempo.
Organiza famílias de formas.

PROTÓTIPO,
(gr. *Proto*-antes+*typos*-modelo).

Resultado concreto de uma série de experiências na investigação do tipo.

Também se emprega o termo significando um objeto construído para servir de **modelo ou ensaio**, que poderá sofrer adaptações.

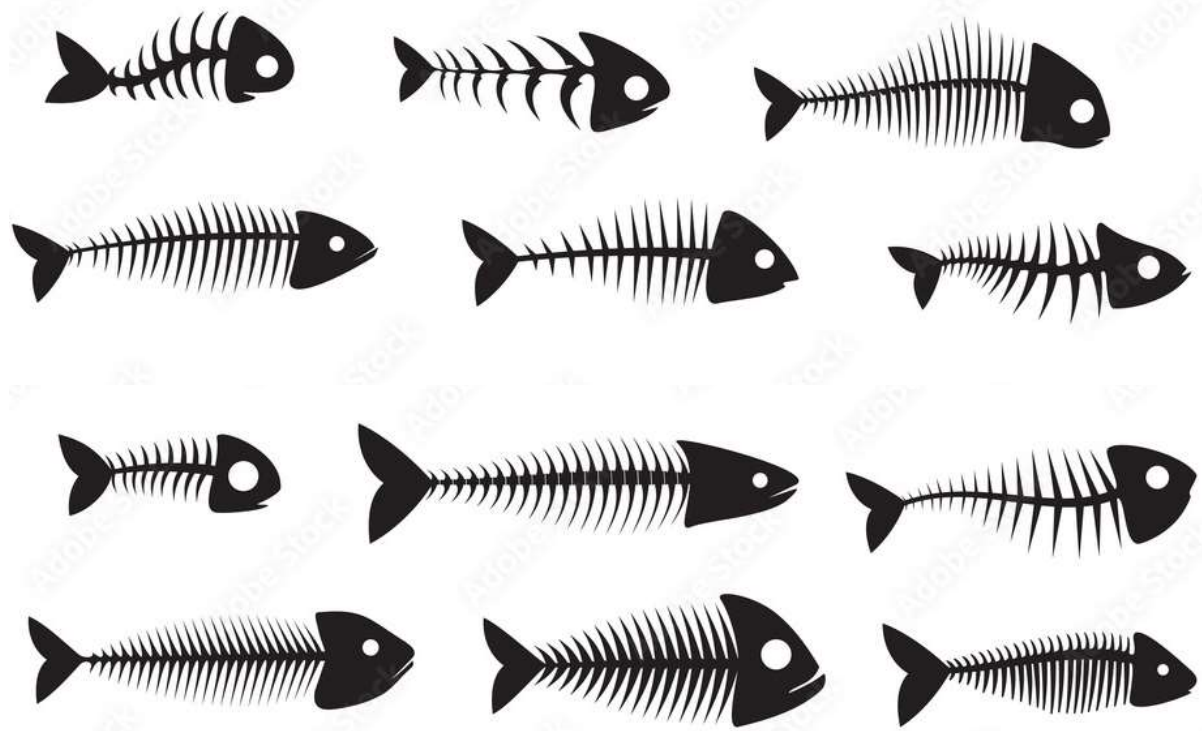

MODELO
(latim *modulus* - medida, padrão).

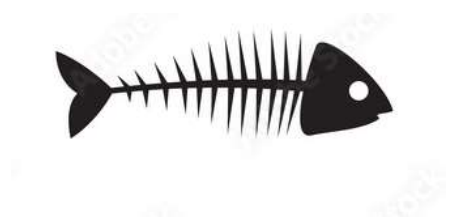

Exemplo particular e concreto que pode servir de base à reprodução ou imitação, que funciona como referência prática ou estilística.

Carácter: é **singular e específico**, pode ser copiado ou reinterpretado.

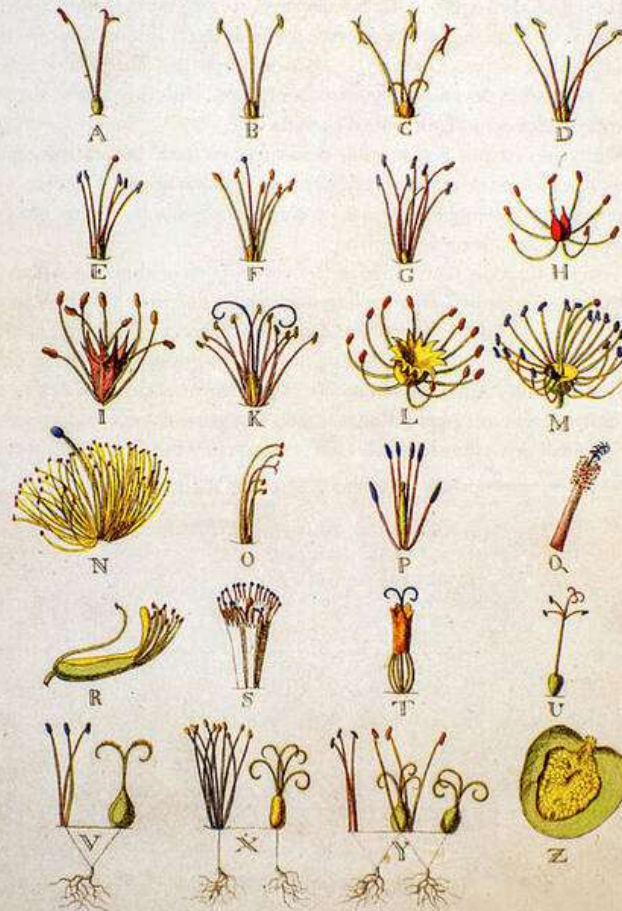

Exemplo concreto, localizado e datado, que serve de guia ou padrão para novas criações.
